

B1: Walking Up to a Program

STRUCTURE

Getting the program to run → navigate to model > ui, main, usage
↳ Look for "Play" icon to run
↳ From running the program, investigate sequential operations & imports.
Once running, see file structure again to find how classes & packages behave.

PACKAGE RELATIONSHIPS

INTERCLASS RELATIONSHIPS

To understand inter-class relationships, ^{comment out} delete classes and see what files break.
↳ This will show which classes are dependent on the deleted class.

TO FIND THE GENERAL BEHAVIOUR OF A PROGRAM, RUN IT, COMMENT OUT CODE, LOOK AT IMPORTS etc.
